## EXPERIENCE

### Web Development Projects

#### General Assembly

📅 09/2020 - Ongoing

🔗 <https://github.com/adenrashid/tic-tac-go>

In this intensive program I am learning the fundamentals of writing good quality software. I have written one application and will write three more by completion of the course. All applications are version controlled using Git.

- Tic-Tac-Go: a monolithic application written in vanilla javascript to hone problem solving skills. The solution has been deployed to Github pages.

### Dentist

#### Sunshine Dental Group

📅 01/2020 - 08/2020

- Working within a multidisciplinary team
- Problem solving
- Adaptability and a willingness to learn
